quick documentation 🚳 as-informatik.net

TO:	
FROM:	ARND.SPIERING@AS-INFORMATIK.NET
SUBJECT:	OPENERP INSTALLATION UND DEMO KONFIGURATION
DATE:	17.12.2011

Inhalt

Dieses Dokument beschreibt die Installation von Open ERP in der Version 6.0 auf einem Windows Server.

Auf der OpenERP Seite (<u>http://www.openerp.com/</u>) gibt es unterschiedlichste Dokumentationen, allerdings nur für die ältere 5.0 Version. Die Installation weicht von den dort beschriebenen Schritten enorm ab.

Daher wird hier dokumentiert, welche Komponenten benötigt werden und wie eine OpenERP Datenbank (mit Demo Daten) aufgesetzt werden kann.

Hier eine Übersicht der Inhalte:

Ir	1halt	1
	Installation PostgreSQL	2
	Installation pgAdmin (Windows)	7
	Installation OpenERP	11
	Aufbau der Demo Datenbank	17
	OpenERP Web Interface	25

Installation PostgreSQL

Zunächst wird eine PostgreSQL Datenbank installiert.

🕼 Setup	
Installation Directory	
Please specify the directory where PostgreSQL will be insi	talled.
Installation Directory C:\Program Files\PostgreSQL\9.1	
BitRock Installer	
	< Back Next > Cancel

🥵 Setup			
Data Directory			1
Please select a directory under which to store your data. Data Directory \Program Files\PostgreSQL\9.1\data			
BitRock Installer	< Back	Next >	Cancel

Setup	
Password	s an
Please provide a password for the database superuser (postgres) and service account (service account already exists in Windows, you must enter the current password for the account does not exist, it will be created when you click 'Next'.	(postgres). If the e account. If the
